

Bilyeu sinkhole repair under way

Repair of Bilyeu Avenue in Netarts, following the development of a sink hole and collapse of a culvert in January, began Monday by Alpine Construction of Tillamook. Excavator operators David Gunder, left, and Robert Gunder prepare the stream bed for the installation of a 48-inch-by-93-foot culvert. A sewer line and phone cables

will also have to be re-connected to complete the project. The road is expected to be open to the public next week.
