

# *Long Prairie Road gets new coat*

BOB REED/FOR THE HEADLIGHT-HERALD

Long Prairie Road receives a 2-inch asphalt overlay by Tillamook County Public Works. The money for the project marks the completion of asphalt funds in the 2005-06 road budget, according to Aaron Suko, Public Works director. Employees on the asphalt project include, from left, Ed Grimes, Grant Graves, Mel McDonald, Rick Kjemperud and Bob Malo, asphalt roller operator. The current project extends from the Port of Tillamook Bay entrance on Blimp Boulevard to within 800 feet of U.S. 101, which is under design to add a lane and rebuild that portion of Long Prairie Road. The week-long project was expected to be completed this week.
