

Blame it on the beavers

TILLAMOOK COUNTY PUBLIC WORKS/COURTESY PHOTO

County Road Department South crew member Greg Gass stands in a hole in damaged Meda Loop Road near U.S. 101, March 5. The road crew was working at a nearby site and had just returned to finish work to find this new hole in the road shoulder. An unknown beaver den under the road shoulder had finally — and suddenly — collapsed. The crew repaired the road shoulder with a load of rock that day.
