**TILLAMOOK COUNTY COMMISSIONER REPORT IN THE HEADLIGHT HERALD
FOR MARCH 23RD, 2005**

ROCK CRUSHING, MAINTENANCE ROCK

Tillamook County Public Works has entered into a contract to mine, crush and stockpile rock for road maintenance. Nesko Rock was awarded a contract competitively to perform the work. The contract will provide 15,000 cubic yard of 1"- crushed rock and 5,000 cubic yards of 2"- crushed rock at each of the two County owned quarry locations. The two county quarries are located south of Cloverdale (near Clear Creek) and north of Nehalem.

Work has started at the south quarry and work at the north quarry will follow over the next month. The mining phase of the work in both quarries will involve blasting to loosen the rock.

In addition to the rock that is being produced, Public Works will continue to buy quantities of rock from private quarries, especially in Central District.

If you have any questions, please call Aaron Suko or Bob Willhite at Tillamook County Public Works, 503-842-3419.
