Bridge replacement out to bid

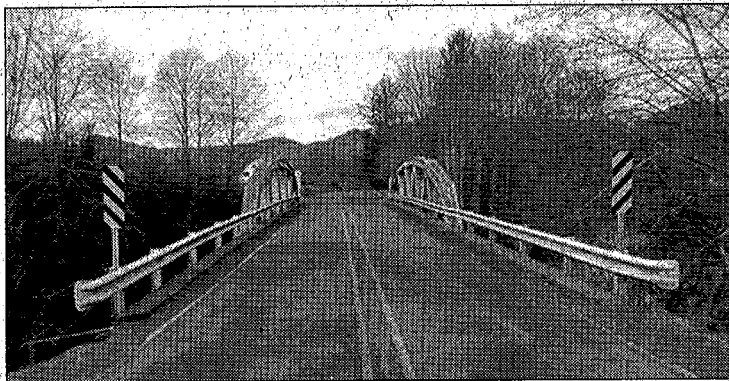

Tillamook County Public Works has started a competitive bid advertisement for a contractor for the Sorensen Bridge replacement project at Milepost 2.48 on Blaine Road. The design and construction are funded by a 100 percent funded grant from the Oregon Transportation Investment Act (OTIA).

The project entails replacement of the bridge, along with respective road work. The value of the construction project is estimated between \$1,300,000 and \$2,500,000.

Project construction is scheduled to begin this summer and run through summer 2007, with completion in the fall or winter of 2007.

During the project, Blaine Road at the bridge site will remain open to traffic. The new bridge will be constructed adjacent to the old bridge prior its removal.

The formal invitation to bid advertisements are in the *Head-*
