Post Gone

The year 1958 M. Whitmore, USFS retraced this Sec. line finding orig. blazes and the 1/4 corner point from which was a 26" fir, S.89°E., 24.4 ft.(orig) with visible mks 1/4 S3 BT. The orig. S.W. BT was entirely gone. As a road was surveyed to run thru this corner point destroying the corner and witness tree M. Whitmore at that time set a witness post 60 ft. north of the corner point.

On this date of 8-25-65 the witness post is verified as in its proper location by M. Whitmore in the presence of Leonard Whitmore, Gary Bergstrom and Don Erlich.

Therefore I establish the 1/4 corner point on the lower bank of the road.

I set 4" x 4" white post 6 ft. above ground with X on East side, 1/4 corner scribed on North side, S3 on East side, and S4 on West side.

I mark New BT^s

- 34" fir, S.13°E., 25 ft. mkd 1/4 S3 BT
- 30" fir, S.28°30' W. 27 1/2 ft. mdk 1/4 S4 BT.
