

County Surveyor's Record, Tillamook County, Oregon

CHAINS

± 1972 G.F.
7/8
C/4 Cor Sec 25 5S11
Fd 1 1/2" I.P. Plugged and
Teak.
We witness cor then
put a 2" I.P. over the
1 1/2" I.P. and raised it
up to surface of the
ground. It now is ±
6" above ground.
Cor is on a angle.
This is all we done.
JLC said to do no
more.
THIS IS A "HISTORICAL" CORNER.
AND IS NOT NECESSARILY AT
THE LEGAL C/4 POSITION.
AT LEAST THIS PERPETUATES IT
A FEW MORE YEARS.
G.L. Carter Co Surveyor
5/18/78
