*NOTE CONDITION AND ORIGIN

MONUMENT/ACCESSORY*	LOCATION FROM CORNER	WITNESSES	DATE
At the corner to secs. 9,10,15 & 16, T2N, R7W, I find pipe and four BT's set by Louis W. Amort, RE2311, for the Oregon State Board of Forestry. No original BT now exists, though an unmarked stump conforms in direction and distance with the notes which list only a 62" Fir bearing S13 E 31lks, stating that there are no other trees convenient. In his description of the corner, dated Dec. 16, 1952, Mr. Amort states, "62" Fir brs S13E 31lks; now 50" snag, scribe marks T2 exposed on burnt face." In a verbal communication with Mr. Amort has stated that shortly thereafter he found the snag felled in logging and that he chopped the scribed section from the log and preserved it in his office. The statement by the original surveyor that there was only one BT convenient to the corner is clearly erroneous.		B. Mason Jr.	10/10/56
