

MEMORANDUM

Date: June 21, 2017
To: Citizens in Tillamook County
From: Tillamook County Public Works
Subject: Lommen Bridge Project Update - Traffic Changes

The Lommen Bridge Replacement Project at milepost 11.5 on Miami-Foley Road will be changing traffic patterns.

The Lommen Bridge project is proceeding on schedule with the demolition of the old bridge about to begin soon. For the demolition of the old bridge to be possible the contractor will need to move traffic onto the new bridge.

On or around July 1, 2017 the contractor will have one lane (downstream side) paved up to the bridge on both sides and traffic will be directed by traffic signals located at each end of the bridge.

The County appreciates the patience and understanding of the travelers passing through the work zone, keeping themselves and the workers safe.

If you have any other questions regarding this bridge replacement project, please call me 503-842-3419.
