Subject: Bower Creek Culvert Replacement Project

Over the course of the last couple months the Nestucca-Neskowin Sand Lake Watershed Council has completed the bidding and contracting process to replace the existing culverts that carry Bower Creek across Meda Loop Road.

The Bower Creek crossing is located 2.6 miles east of Hwy 101 and 0.7 miles west of Hwy 130. With the contract now in place, the contractor, Pacific Bridge Inc., is now planning to begin construction along the County Road on July 20<sup>th</sup>, 2015.

Please be aware that the roadway **WILL BE CLOSED** to through traffic for at least two weeks during construction. The first indication that most of you will notice is the placement of advance notice signs along both the County Road and Hwy. 101.

We will continue to provide information about this project as the process progresses. Should you have questions or concerns regarding this project, please feel free to contact the Public Works Department at 503-842-3419.

Thank you all for your patience as the project moves forward in order to provide a safer transportation for the travelling public.

Sincerely,

A handwritten signature in black ink that reads "Ronald E. Newton".
