A GPS established control meridian was set along the existing logging road and was used as control to stake the position of the North One-quarter corner of Section 9. The grid bearing and distance between the two control monuments is North 73°56' 59' East 206.21'. The combined scale factor is 0.99990186; Convergence = -2°20'04.79045'. We found double-Alder that might be a possible bearing tree, but the tree has no visible marks and does not fit well with the BLM restoration recorded in Rewitness Book 3, Page 155. There was a metal location tag facing the logging road. The Alder bears South 7° West as shown on Rewitness Card Number 193 (12" Alder bears South 16" West 73 lks. Bark scribed "11/459BT" see Rewitness Book 3, Page 155.) New accessories set: Reset the found 72" hat section post North 1.2' from monument (was North 1.8' Rewitness Card #193). Set a 5/8' x 30' rebar with a red plastic cap stamped "TILLAMOCK CO SURVEY" 9' South of an existing East/West logging road in a pullout — Latitude = 45°29'29.6792' N, Longitude = 123°47'30.77134 W. Set a 5/8' x 30' rebar with a red plastic cap stamped "TILLAMOCK CO SURVEY" 18' South of an existing East/West logging road in a pullout — Latitude = 45°29'30.32008" N, Longitude = 123°47'28.02422" W. New Bearing Trees: A 10" diameter Hemlock tree scribed "1/4 S9BT" bearing North 45° West 36.9'. A 9" diameter Cedar tree scribed "1/4S9BT" bearing North 4° West 34.7'. Location & Comments: This corner is located approximately 75' North of a main logging road on a steep Southerty facing slope. Firm / Agency Address: TILLAMOOK COUNTY SURVEYOR'S OFFICE 201 Laurel Avenue Tillamook, Oregon 97141 Party Chief; Joe Jensen, PLS 60067, Survey Supervisor, Deputy County Surveyor, Michael R. Rice, L.S.I. 16723, Surv	the found monument. The cap is stamped as shown hereon.					
the found monument was disturbed and out of position due to the ground movement on the steep hillside. A GPS established control meridian was set along the existing logging road and was used as control to stake the position of the North One-quarter corner of Section 9. The grid bearing and distance between the two control monuments is North 73°56′ 59″ East 206.21′. The combined scale factor is 0.99990186; Convergence = .2°20′04.79045′. We found double-Alder that might be a possible bearing tree, but the tree has no visible marks and does not fit well with the BLM restoration recorded in Rewitness Book 3, Page 155. There was a metal location tag facing the logging road. The Alder bears South 7° West as shown on Rewitness Card Number 193 (12″ Alder bears South 16° West 73 lks. Bark scribed "14/89BT" see Rewitness Book 3, Page 155). New accessories set: Reset the found 72″ hat section post North 1.2′ from monument (was North 1.8′ Rewitness Card #193). Set a 5/8′ x 30′ rebar with a red plastic cap stamped "TILLAMOOK CO SURVEY" 18′ South of an existing East/West logging road in a pullout – Latitude = 45°29′30.32008° N, Longitude = 123°47′28.02422′ W. New Bearing Trees: A 10″ diameter Hemiock tree scribed "1/4 S9BT" bearing North 45° West 36.9′. A 9″ diameter Cedar tree scribed "1/4S9BT" bearing North 4° West 34.7′. Location & Comments: This corner is located approximately 75′ North of a main logging road on a steep Southerly facing slope.
